SUMMARY

I am an entry level Web Developer. I am passionate about python. I mainly use Django as my backend Framework. I have worked in different academic projects including Networking, Data science, Database Operation, OOP, graphics and game development projects. I love to solve problems, create ideas and work on those ideas which are beneficial to society and I really love to learn.

THESIS

BDstudentsCommunity

📅 April 2021 – June 2021 📍 Dhaka

- It is a web based project named 'BDStudentsCommunity', Where Students and Teachers can sell notes, write various types of blogs, ask question, can follow each other and communicate.
